### WORK EXPERIENCE

#### Pharmacist

Riteaid Pharmacy - Bryn Mawr, PA - February 2015 to Present

Manage high-volume pharmacy that processed as many as 300 prescriptions daily; dispense, fill, and verify orders and handle issues regarding drug utilization reviews (DUR), third parties, and prescriptions.

- Communicate and interact with physicians, dentists, nurses and others in health related fields to better serve customer. Claim for MTM outcomes, Miraxa, Point of care and immunization services.
- Retrieve and file prescriptions in the appropriate files (including CILs).
- Maintain perpetual inventory of Schedule II drugs and assist in proper ordering, handling, receiving, documentation, and storage of all controlled and non controlled substances.
- Exceed targeted sales quotas by providing excellent customer service and patient consultation.

#### Pharmacist

ExcellRx-Enclara Hospice Pharmacia - Philadelphia, PA - November 2014 to February 2015

Communicate and interact with Drs, and hospice nurses via telephone for drug-drug interactions, drug-allergy interactions and drug-disease interactions.

- Execute day-to-day Pharmacy operation as pertain to workflow, production and deadlines.
- Check the prescription orders from nursing home, hospice, and long term care facility, review narcotic reconciliations, dispense and verify medication in compliance with state and federal regulations.
- Ensure that pharmacy is in compliance with local, federal and state rules and regulations regarding practice of pharmacy.

#### Pharmacy Manager

Wal-Mart Pharmacy - East Greenville, PA - April 2010 to October 2014

Manage high-volume pharmacy that processed as many as 300 prescriptions daily; dispense, fill, and verify orders and handle issues regarding drug utilization reviews (DUR), third parties, and prescriptions.

- Communicate and interact with physicians, dentists, nurses and others in health related fields to better serve customer.
- Pull outdated, damaged, and recalled merchandise and prepare for Genco return.
- Retrieve and file prescriptions in the appropriate files (including CILs).
- Maintain perpetual inventory of Schedule II drugs and assist in proper ordering, handling, receiving, documentation, and storage of all controlled and non controlled substances.
- Exceed targeted sales quotas by providing excellent customer service and patient consultation.
- Oversaw Pharmacy sales, profit and overall business. Conduct conference calls with supervisor and associate scheduling with store manager.
- Ensure compliance with all company procedure and federal and state laws, rules and regulations. Comply to all security / Loss Prevention procedures including setting alarm and secure safe.
- Report dispensing and HIPAA incidents in SCRT. Notify and report completion to the supervisor.
- Orient, train, coach and mentor pharmacy associates. Provide a performance review and evaluation to subordinate pharmacy staff semiannually.

## **Pharmacist**

CVS Pharmacy - Ann Arbor, MI - January 2007 to March 2010

Managed high-volume pharmacy that processed as many as 500 prescriptions daily; dispensed, filled, and verified orders and handled issues regarding drug utilization reviews (DUR), third parties, and prescriptions.

- Oversaw production staff, ensuring proper data entry, accuracy, workflow, and adherence to dispensing procedure.
- Communicated with physicians, dentists, nurses and others in health related fields to better serve customer. Serviced and satisfied the customers as health care needs in and out of pharmacy area.
- Exceeded targeted sales quotas by providing excellent customer service and patient consultation.
- Ensured compliance with all company procedure and federal and state laws, rules and regulations.

## **Pharmacy Technician**

Sam's Club Pharmacy - Secaucus, NJ - January 2006 to June 2006

Processed prescriptions, dispensing, filling, and labeling pharmaceuticals; kept stock levels as required.

- Supplied information on products such as durable medical equipment and home health care supplies; assisted customers during prescription pick up and drop-off.

## **Research Associate**

Alembic Pharmaceuticals Ltd - 2002 to 2005

Developed new tablet and capsule formulas, combining primary ingredients with various components and conducting tests to measure factors including disintegration time, hardness, and weight.

- Performed liquid manufacturing, dissolving medications into soluble liquids, adding flavors to make mixture palatable, and blending binding agents; confirmed stability through pH and temperature tests.
- Operated HPLC, UV/IR, and GC equipment, tablet compression and tablet coating devices, fluid bed dryers, double cone blenders, and blister packing machinery.
