## Music Director

Chadds Ford, PA - Email me on Indeed: [indeed.com/r/Nicholas-Koban-Hogue/d1f5b1643d662378](https://www.indeed.com/r/Nicholas-Koban-Hogue/d1f5b1643d662378)

## WORK EXPERIENCE

### Music Director

WVU FM - September 2013 to Present

Leader of an award winning student organization. As music director, I am responsible for keeping the radio station running smoothly. Not only do I decide what music is added to the rotation, but I also ensure that every shift is covered 24 hours a day. This, along with the several on air shifts that I DJ weekly.

Neutronics

Spring 2010-Fall 2011

### Mechanical Assembler

At Neutronics, I was primarily located in the gas lab mixing chemicals. In the gas lab, I was responsible for ensuring that the mixing of gasses was done safely and precisely. These gasses were used to calibrate machinery, so errors on my part would impact the final product. Also, I found myself having to learn new things on the spot daily as I moved to other areas of the company as needed.

### Mechanical Assembler

Neutronics Inc - Exton, PA - July 2012 to September 2013

#### Responsibilities

At this job, I was a go to person to get just about anything done for the engineers. In this company, I bounced around mostly between the gaseous chemicals lab and the burn in area of the company. In the gaseous chemicals lab, I was responsible for safely and accurately mixing gaseous chemical blends to order for the quality control and calibration areas. In the burn in area, I was responsible for ensuring that the pieces were correctly programmed.

#### Skills Used

I developed skills in the Microsoft office package, and became used to the stress and speed of a manufacturing plant.

## EDUCATION

### BS in Energy Land Management

WVU - Morgantown, WV

2013 to 2018

## SKILLS

Microsoft Office (2 years), Professional Writing (3 years), Communications (3 years)

## AWARDS

### Radio Station of the Year

October 2015

Our campus radio station was nominated for six awards in total, and won three of them including best overall radio station. At that time, I was the Metal Director, and I am now the leader of the station as Music Director.
