## WORK EXPERIENCE

### **Electrical Project Manager**

Ray Angelini, Inc. - Sewell, NJ - March 2006 to June 2012

#### Responsibilities

Competent, detail orientated Project Manager / Supervisor, currently licensed as a Journeyman Electrician/ Contractor and licensed ICS Electrical Inspector in New Jersey. In last position, performed and managed all Utility & NJCEP (New Jersey Clean Energy Program) initial and final submissions for Ray Angelini, Inc., a Multi-Million Dollar a year Electrical Contractor and Solar Integrator / Designer / Installer.

#### Accomplishments

Diversified Electrical / Instrumentation / Service / Solar background experience with computer skills, training and technical knowledge to communicate, plan, layout, install, maintain, troubleshoot, test, repair, supervise, manage and reporting on multiple projects. Numerous years of Electrical Installations, Supervision, and Project Management experience in the various fields of Industrial - Instrumentation - Rail Transit - Solar Construction, Production, Electrical Maintenance, Service, Design, Project Estimating and Cost Accounting intriguingly involved on various size projects ranging upwards to 54.7 Million Dollars.

#### Skills Used

#### Project Skills

Diversified background, detailed oriented with extensive 'hands on' experience, proven leadership / management abilities with extensive record keeping / reporting skills in various fields of Electrical / Solar Construction, Electrical Service / Inspections, including various Production Facilities / Processes / Equipment Installations, Facility Relocations and Customer Service.

PEPCO ENERGY ACCC 2.36 Megawatt Roof Solar Project in Atlantic City, NJ 9/2008 TO 1/2009

– Performed On-Site Project Management for the largest U.S. Roof-Mounted Solar Array Installation at that time at the Atlantic City Convention Center for Ray Angelini, Inc.

VALERO / NOOTER FCCU Project in Paulsboro, NJ 3/2006 to 7/2006 – Performed On-Site Project Management for a scheduled 24-Day, 24-Hour 'Turn-Around Project' at a Valero Crude Oil Refinery for Ray Angelini, Inc.

SEPTA TRACK & SIGNAL IMPROVEMENTS Project 2/2001 to 6/2005 - Performed as On-Site Project Superintendent & Safety Officer for a SEPTA 7.2 mile Surface Commuter Rail Track & Signal Improvement Project from Wayne Junction to Glenside, PA. for ENCOMPASS/The Farfield Company.

VINELAND CHEMICAL REMEDIATION SITE in Vineland, NJ 7/1998 to 2/2001 - Contracted as an Industrial Electrical/Instrumentation Project Manager for a Black& Vetch - Army Corps Ground Water Remediation Project in South Jersey. I was responsible for selection, procurement, fabrication, installation and start-up of all Electrical/ Instruments and Control Panels for Scalfo Electric, Inc.

LANGSTON COMPANY, INC. 4/1995 to 7/1998 and 7/1977 to 1984 - Performed as a Field Electrical Service Engineer and Contract Installation Manager for the Cherry Hill NJ based paper corrugating/finishing equipment manufacture on both Domestic and Foreign assignments. I was initially hired as a Production Electrician progressing to Electrical Shop Leader. GRAPHIC PRINTING/CONVERTING EQUIPMENT Field Service Technician 4/1984 to 6/1989

– Performed both Electrical and Mechanical Field Service on various graphic printing and converting equipment in the Tri-State area for a Moorestown NJ based Electrical Contractor, McGarvey Electric, Inc. I was initially hired as a Field Service Technician and progressed to the Service Division Manager responsible for the total Estimation, Planning, Installations, Plant Relocations and Service.

### **Electrical Project Superintendent & Safety / Compliance Officer**

The Farfield Company - Lititz, PA - February 2001 to June 2005

#### **Responsibilities**

Performed as On-Site Project Superintendent & Safety Officer for a SEPTA 7.2 mile Surface Commuter Rail Track & Signal Improvement Project from Wayne Junction to Glenside, PA. for ENCOMPASS/The Farfield Company.

#### **Accomplishments**

Responsible for maintaining and / or reducing numerous track outages for scheduled electrical and civil activities resulting in SEPTA maintaining their train schedules.

Performed daily monitoring of all construction activities on various scheduled day and night project milestones of The Farfield Company as well as all sub-contractors for both contractual compliance and Safety.

Responsible for developing, preparing and implementing the Project Track & Signal / Control wiring installation methods, terminations and testing adhering to SEPTA's contractual requirements.

#### **Skills Used**

Leadership on both a overall project and individual basis as deemed necessary to maintain schedules, Safety Compliance and budgets utilizing computer MS Office computer programs.

On various occasions I was required to perform 'hands-on' foreman activities as the numerous schedules or Owner's requirements.
