I am licensed and fully insured as a general contractor. I have many trade experiences, along with a plethora of certifications and diplomas. I am currently a general contractor and a full time building engineer. Authorized to work in the US for any employer

WORK EXPERIENCE

Building engineer

World communications - Philadelphia, PA - February 2015 to Present

Responsibilities

Remodeling entire rooms. In charge of a budget and crew. Plumbing, carpentry, electrical are all trades that were required each day. Cutting copper pipes and changed them to PVC, demo entire rooms and remodel them from scratch. Drywall repairs, ballast replacements, VCT flooring installations. Managed a crew of five maintenance technicians.

Accomplishments

I remodeled completely over 6 rooms, managed an excellent crew. Saved over 1600 dollars each month on water bills by using my knowledge in plumbing and being eco friendly.

Skills Used

Electrical skills, plumbing skills, carpentry skills, communication skills, management skills, HVAC skills. Construction skills, flooring, certifications i have acquired and more.

Maintenance Tech

SMS - Mooristown Nj - December 2014 to Present

Responsibilities

Electrical work, ballast repairs, lighting, dry wall repairs. Painting, tile, HVAC minor repairs, plumbing. Day to day duties change each day.

Accomplishments

Very well known through the mall as I was at the cherry hill mall that I got things done, was always working hard. Any problem the mall encountered such as power outage or roof leak I fixed.

Skills Used

Everything I was taught at my internship and college has helped me in my everyday job duties, I also learn new things as I am on the job.
