WORK EXPERIENCE

Staff Pharmacist

Omnicare, Inc - King of Prussia, PA - July 2015 to Present

King of Prussia, PA.

OMNICARE

- Review and interpret prescription information as entered by the data entry pharmacy technicians to ensure all prescriptions are accurate and complete.
- Reviews drug-drug and drug-allergy interactions and high dose prescriptions and resolves each situation.
- Phone doctor office or patient concerning the drug interaction or allergy.
- Request an affidavit from the physician under certain conditions (high or max. dose). May cancel orders, delete or change medications, or accept medications as written.
- May cause a letter to be written to the patient explaining drug or allergy interaction.
- Utilize clinical knowledge to review denied PA's (prior authorizations) to check that the denial was warranted, override PA's when appropriate, and review questionable PA's.
- Route prescriptions, when necessary, to the appropriate personnel to see that changes/corrections are made.

Pharmacist

EXPRESS SCRIPTS - Willingboro, NJ - June 2014 to June 2015

Florence, NJ

EXPRESS SCRIPTS

- Proceed to check work done by pharmacy technicians in an automated dispensing area.
- Escalate quality incidents and exception orders to a pharmacist lead.
- To maintain daily production, quality and service levels, while varying work priorities and duties to accommodate business needs.
- May also provide overrides and guide technicians within a pharmacy task.
- Verify prescription information entered in the system by data entry or order entry. Contact physicians for new and/or transfer authorization. Work with physicians in order to convert branded prescription drugs to generics or preferred drugs when possible.
- Support other pharmacists as needed, perform any additional duties as assigned by management.

Staff Pharmacist

WALGREENS - Philadelphia, PA - June 2000 to April 2014

Philadelphia, PA

WALGREENS

- Reviews prescriptions for accuracy and appropriateness.
- Intervenes on prescription problems and maintains communication with the prescribers to resolve and correct any problem orders.
- Compounds and dispenses the prescribed medications as per the professional, federal and state regulations.
- Provides patient counseling/education on medications.
- Supervises the inventory control procedures and performs related functions in maintaining adequate stocks at the store.
- Does scheduling of the staff for the store's coverage.

- Responsible for the record-keeping of all controlled substances, patient prescription records, prescription reimbursements, etc.
- Prepares reports (i.e., sales, inventory, etc.) on the store's activities to the parent company.
- Provide immunizations and medication therapy management.
- Responsible for prior authorization and third party rejects from pharmacy benefit managers. (i.e. call on prior authorizations and communicate with doctor offices and representatives to facilitate understanding on the claim being rejected)
- Serve as a clinical resource to the staff in reviewing denied, unclear or questionable prior authorization requests

EDUCATION
