WORK EXPERIENCE

Project Manager and Security Systems Engineer

American Automation Building Solution, Inc - Philadelphia, PA - October 2014 to Present

Responsibilities

Located and put bid response documents together to include pricing, past performance, and technical response for mainly government solicitations.

Installed Vindicator IDS and ACS along with Pelco and Bosch camera systems.

Accomplishments

Won and completed several high dollar contracts. Managed over 10 different contracts to include locations at Tyndall AFB, Denver, and Kadena AB.

Skills Used

Organizational, Management, and Problem Solving.

Flight Chief and Emergency Services Dispatcher

United States Air Force - Tyndall AFB, FL - June 2013 to June 2013

Provided shift supervisor duties to include management of 25 personnel. Dispatched police and fire 911 emergency calls. Cut response times by maintaining patrol zones around the base.

Electronic Security Systems Manager

United States Air Force - Tyndall AFB, FL - January 2011 to June 2013

Provided technical management of \$9M alarm system over 110 buildings. Lead project manager position for 50 installation contracts including a \$3.5M contract which finished two months before schedule. Improved system repair and maintenance times by having replacement parts in stock and maintaining a detailed maintenance plan with alarm system maintenance contractor.

Assistant Team Supervisor

United States Air Force - June 2010 to December 2010

Joint Base Balad, Iraq

Provided security and protection to Dept. of Defense assets and over 12K personnel in a hostile deployed location. Led 14 personnel in 115 combat patrols to protect 50Km around the base, these combat patrols led to the arrest and detention of five high valued insurgents.

Patrolman

United States Air Force - Tyndall AFB, FL - February 2008 to June 2010

Provided law enforcement and security for US Air Force assets and 10K personnel.
