## WORK EXPERIENCE

### **Clinical Pharmacist**

Orlando Regional Medical Center - Orlando, FL - March 2014 to Present

### **Clinical Pharmacist**

St. Francis Hospital - Wilmington, DE - March 2013 to Present

### **Clinical Pharmacist Specialist - Anticoagulation Management Outpatient Clinic & Inpatient Post Cardiac Surgical Unit**

Hospital of the University of Pennsylvania - Philadelphia, PA - July 2008 to January 2010

### **ASHP Accredited Pharmacy Practice Residency**

Hospital of the University of Pennsylvania - Philadelphia, PA - June 2007 to June 2008

### **ASHP Accredited Pharmacy Practice Residency**

Hahnemann University Hospital - Philadelphia, PA - June 2006 to June 2007

### **Graduate Pharmacist**

CVS Pharmacy - Tampa, FL - March 2006 to September 2006

### **Pharmacy Technician Certification**

University of Florida - Gainesville, FL - August 2002 to May 2006

### **Pharmacy Intern**

Target Pharmacy - Brandon, FL - June 2004 to September 2004

### **Pharmacy Technician**

Certification Board, Inc - March 2002 to March 2004

### **Pharmacy Intern**

Shands Hospital at the University of Florida - Gainesville, FL - May 2003 to August 2003

Six, two-week rotations in various hospital and outpatient settings

- Prepared for and participated in a JCAHO hospital pharmacy inspection
- Counseled patients regarding warfarin, theophylline, and estrogens
- Chemotherapy preparation

### **Pharmacy Technician II**

Sarasota Memorial Hospital - Sarasota, FL - January 2002 to August 2002

## EDUCATION

### **BCPS in Pharmacotherapy**

Board of Pharmacy Specialties

2008 to 2015

### **PharmD in Doctor of Pharmacy**

University of Florida - Gainesville, FL

2002 to 2006

### **BS in Nutrition**

University of Florida - Gainesville, FL

1997 to 2001

### **SKILLS**

Special Skills • Pharmacokinetics calculations for pharmacy consult service • Proficient in horizontal, vertical and chemotherapy flow hoods • Experience working in a USP chapter 797 high-risk compounding IV room • Skilled at calculating and preparing micro and macro TPN formulas • Proficient in various pharmacy computer systems including Pyxis, SureMed and Omnicell technology, Sunrise Clinical Manager, Horizons MedManager, CareVision, Invision, Cerner, Megasource

### **ADDITIONAL INFORMATION**

Registered Pharmacist

Pennsylvania State Board of Pharmacy

No. [...]

Florida State Board of Pharmacy

No. PS41981

September 2006 – Present

BPS Certified in Pharmacotherapy

December 2008 - present

Publication

Lombardi LR, Kreys E, Gerry S, Boullata JI. Nutrition in the Age of Polypharmacy. In: Bendich A, Deckelbaum RJ, eds. Preventive Nutrition: The Comprehensive Guide for Health Professionals. 4th ed. New York: Springer-Verlag; 2009: 79-123.

Pharmacy Practice Residency - Hospital of the University of Pennsylvania

Phase III: Steven Morgan, Pharm.D., BCPS

Cardiac Surgery • Collaborated with nurse practitioners and provided clinical pharmacy order review for the post-cardiac surgery floor

- Analyzed and recommended pharmacokinetic antibiotic dosing

- Performed order review and entry for the post-cardiac surgery floor

Infectious Disease Steven Morgan, Pharm.D., BCPS

II • Prepared and presented topic discussions to infectious disease pharmacists and physicians

- Taught aminoglycoside and vancomycin pharmacokinetics to third year medical students

- 

Infectious Shawn Binkley, Pharm.D

Disease • Participated in the hospital's antimicrobial management program

- Calculated patient specific pharmacokinetic parameters for renal failure, hemodialysis and CVVHD

- Reviewed HIV phenotype/genotype for appropriate HAART selection

Solid Organ Erin Wade, Pharm.D.

Transplant • Managed prophylactic antibiotic and antiviral medications for renal and hepatic transplant patients

- Counseled patients regarding new immunosuppressive and preventative medications
- Created MedAction patient worksheets and updated the Organ Transplant Tracking Registry database daily

Critical Care Gretchen Redline, Pharm.D.

- Attended daily multidisciplinary rounds in the surgical intensive care unit
- Utilized antibiotic management skills to recommend specific antibiotic regimens for multi-drug resistant organisms
- Managed drug dosing adjustments for CVVHD and HD

Hematology/ Jennifer Butler, Pharm.D., BCOP

Oncology • Participated in daily rounds with the bone marrow transplant team

- Performed kinetics for neutropenic patients on aminoglycosides
- Educated patients regarding chemotherapies and new home medications

Drug Angela Juul, Pharm.D., Karen Shalaby, Pharm.D.

Information • Researched and prepared answers for medical professionals with calls to the hospital drug information center

- Researched drug-food interactions for the hospital formulary
- Investigated adverse drug event reports in the hospital
- Conducted drug formulary review & analysis for JACHO standards

Pharmacy Richard Demers, M.S., FASHP

Administration • Attended hospital management meetings including Patient Safety, Pharmacy & Therapeutics, and hospital board meetings

- Performed cost analysis of low molecular weight heparin products for addition to hospital formulary
- Prepared discussion and handout regarding low molecular weight heparin products and presented to the Institutes for Safe Medicine
- Prepared for JACHO inspection
- Reviewed House Bill 1250 for discussion regarding pharmacy technician training and medication therapy management at the hospital

General Angela Juul, Pharm.D.

Medicine • Participated in daily general medicine rounds

- Performed kinetics for general medicine patients
- Educated patients regarding new therapies

HIV Clinic Amy Graziani, Pharm.D., Angela Juul, Pharm.D.

- Prepared medication boxes and interviewed clinic patients
- Educated patients newly started on HIV medications
- Participated in multidisciplinary medical team approach to HIV patient care

Warfarin Clinic Mitchell Laskin, RPh

- Performed finger stick for INR reading utilizing POC machine
- Adjusted warfarin dose according to INR and patient factors
- Prepared enoxaparin bridging schedules

Pharmacy Practice Residency - Hahnemann University Hospital

Critical Care Anthony Chiefari, Pharm.D.

- Provided medication management for patients in an ICU setting
- Facilitated antimicrobial and antifungal selection

Precepting Anthony Chiefari, Pharm.D.

- Served as the primary preceptor for a pharmacy practice clerkship student
- Prepared a month-long rotation schedule consisting of topic discussions, a case presentation, a nursing inservice, and special project
- Placed student with a multidisciplinary general medicine team for rounds

Management Alfred Ochlak, Pharm.D.

- Participated in Antimicrobial Subcommittee, P&T Committee
- Prepared and presented IV Anticoagulant Drug Monograph for P&T Committee meeting

Investigational Drug Denise Lai, Pharm.D.

- Service
- Prepared investigational drugs for ongoing clinical trials
  - Wrote protocols for newly started drug trials

Wendy Lin, Pharm.D.

Infectious Disease II

- Focused specifically on pharmacokinetics of vancomycin and aminoglycosides
- Rounded with Infectious Disease team daily

Hematology/Oncology Yelena Bogus, Pharm.D., BCOP

Clinic Pamela Crilley, DO

Michael Styler, MD

David Topolsky, MD

Kristine Ward, MD

- Interviewed chemotherapy patients and recommended adjustments to pain and chemotherapy regimens

Infectious Disease Wendy Lin, Pharm.D.

- Participated in the Antimicrobial Management Program

- Proposed antimicrobial regimen changes based on renal function, drug interactions and susceptibility
- Developed febrile neutropenia protocol for Hahnemann University Hospital

Hematology/Oncology Yelena Bogus, Pharm.D., BCOP

- Provided medication management for drug interactions and adverse reactions to chemotherapy
- Facilitated antimicrobial and antifungal selection for suspected febrile neutropenia
- Calculated patient specific chemotherapy dosages and determined pre-medication therapy

Internal Medicine Anthony Chiefari, Pharm.D.

- Examined patients for signs and symptoms of drug reactions
- Adjusted medications based on vital signs, laboratory values and disease state changes

Medicine Clinic William Berlinger, MD

Edward Chu, MD

Nandini Nair, MD

- Performed patient interviews and presented H&P to medical team
- Recommended alterations in medication therapy
- Educated patients regarding disease state and pharmacotherapy

Clinical Therapeutics University of the Sciences in Philadelphia

Instructor Shawn Boyle, Pharm.D.

- Instructed third year pharmacy students in clinical skills laboratory
- Taught students various skills including heparin dosing, equianalgesic opioid adjustments and vaccine administration

Pharmacy School

Clerkship Rotations

Adult Medicine Tampa General Hospital

1&2 Drew Silverman, Pharm.D., BCPS

- Attended rounds with kidney and liver transplant team and suggested adjustments in medication profiles
- Tracked transplant patients' progress and wrote SOAP notes daily
- Created transplant medication flash cards for patient education

Drug Information Tampa General Hospital

Stacy Hester, RPh

- Wrote 5HT3 drug class monograph
- Wrote approved 1st & 2nd line uses for IVIG monograph for P&T Committee approval

Community Practice AmeriDrug

Brandon, Florida

Stacy White, Pharm.D.

- Worked closely with adjacent medical practice providing medication management to physicians

Ambulatory Care University of Florida Shands Eastside Community

1&2 Practice

Gainesville, Florida

James Taylor, Pharm.D.

- Conducted blood pressure, glucose, and INR measurements
- This clinic served an indigent community and allowed interaction with multiple health care professionals such as physicians, nurse practitioners, and social workers
- Encountered issues regarding Medicaid, Medicare, Medipass, and uninsured patients

Pain Management Helios Pain & Psychiatry Center

Tampa, Florida

Jennifer Strickland, Pharm.D.

Angela Huskey, Pharm.D.

- Interacted with patients experiencing chronic pain and those undergoing substance abuse treatment and psychiatric management
- Practiced alternative pain therapies including TENS, acupuncture, and therapeutic massage

Hematology/Oncology Tampa General Hospital

Linda Linderbeck, RPh

- Provided drug information and dosage recommendations for hematology/oncology team

Critical Care Sarasota Memorial Hospital

Anit Legare, Pharm.D.

- Calculated macro and micro TPN formulations and adjusted electrolytes daily
- Reviewed all ICU patients to ensure proper use of DVT and stress ulcer prophylaxis, renal dose adjustment, sedation, analgesia, and delirium medications

Infectious Disease St. Joseph's Hospital

Tampa, Florida

Julie Gould, Pharm.D.

- Recommended antibiotic renal dose adjustments to physicians
- Calculated and adjusted aminoglycoside and vancomycin pharmacokinetics

Nutrition Support St. Joseph's Hospital

Tampa, Florida

James Nash, Pharm.D.

- Calculated macro and micro TPN formulations and adjusted

electrolytes daily

- Prepared TPNs for all patients

## Projects

Immunosuppressant and azole antifungal drug interaction effects in heart and liver transplant recipients: Drug use evaluation

- Primary objective: Whether clinicians accounted for immunosuppressant-azole antifungal drug interaction by preemptively decreasing immunosuppressive dose
- Secondary objectives: Determine most common azole antifungal used, percent decrease immunosuppressant dose and increase in level, and to determine nephrotoxicity associated with increased immunosuppressant levels

Development of a treatment algorithm for patients with suspected or confirmed heparin-induced thrombocytopenia (HIT)

- Develop a treatment algorithm for suspected or confirmed HIT
- Identify Hahnemann University Hospital's current use of argatroban, bivalirudin, lepirudin and fondaparinux for the treatment of HIT
- Analyze the cost-savings with the use of a single agent

Development of Febrile Neutropenia hospital protocol

- Outline a treatment protocol for chemotherapy patients with febrile neutropenia
- Determine recommended antimicrobial and antifungal therapy based on hospital formulary

Nicardipine Medication Use Evaluation
