## Sales Intern

Malvern, PA - Email me on Indeed: [indeed.com/r/Conor-Flynn/77446245566e5e5d](https://www.indeed.com/r/Conor-Flynn/77446245566e5e5d)

I am a forthcoming chemical engineer from Syracuse University looking for a career in the process-engineering field. I will apply my strong work ethic, problem solving, interpersonal skills, passion, and attention to detail to become a strong asset to any company.

## WORK EXPERIENCE

### Sales Intern

Shannon Chemical Corporation - Exton, PA - June 2013 to August 2013

14

- Became a product specialist in order to help sell products to customers
- Made and received sales calls to city municipalities
- Set and met sales goal with the help of the sales manager
- Acquired copies of previous bid tabulations and registered for upcoming municipality bids
- Participated in online bids to obtain business while competing with other companies in the industry

### Manufacturing Intern

Shannon Chemical Corporation - Exton, PA - June 2013 to August 2013

14

- Worked with the manufacturing team making chemical products
- Performed quality checks on products during and after production
- Assisted the lead engineer to alter formulas in order to meet customer's wishes for different orders

### Manager

Stone Harbor Pizza - Stone Harbor, NJ - June 2011 to August 2011

12

- In charge of overseeing restaurant operations when owner is not present
- Made sure everything is turned off and cleaned properly
- Responsible for counting register money and locking up for the night

### Activities

Member, American Institute of Chemical Engineers, Syracuse University

- Attends monthly meetings and society events.
- Works with other members to complete activities

Peer Advisor, Pathfinder, Syracuse University

- Attends Freshman forum class each week with twelve freshman
- Plans informational events for students outside of their freshman forum class
- Meets with students throughout the semester to ensure a smooth freshman transition

Member, Boxing Club, Syracuse University

- Attended weekly practices

Member, Engineering Ambassadors, Syracuse University

- Works with Syracuse City middle school students after school with on basic science and engineering projects.

Member, South Africa Service Trip, Malvern Christian Service Program

- Worked with the Zulu community where everyone is infected or affected by HIV Aids

- Went to multiple orphanages and helped kids do their homework before engaging in recreational activities
