### WORK EXPERIENCE

#### Dispensing Pharmacist

OMNICARE PHARMACY - King of Prussia, PA - 2012 to Present

Provides excellent service and displays commitment to accuracy in a high volume long term care pharmacy. Responsibilities include managing and supervising pharmacy workflow, evaluating physician medication orders for appropriateness of drug, dosage, potential interactions, route of administration and stability, providing clinical expertise by responding to drug-related questions and concerns initiated by physicians and nurses, and ensuring that the pharmacy is in compliance with all local, state, and federal rules and regulations regarding the practice of pharmacy. Supervises preparation of sterile IV drug products or solutions. Manages customer service, data entry, and fill technicians. Works with department managers to ensure timely delivery of medications to long term care facilities.

#### Key Achievements:

- Coordinates overnight backup pharmacy services for 5 Omnicare pharmacies, by processing authorizations for emergency removal of controlled substances from emergency kits, answering clinical questions, and scheduling emergency delivery of medications from offsite pharmacy.
- Maintains pharmacist productivity in the top 10 percent of staff pharmacists, with a maximum accuracy rate.
- Responsible for the ordering and dispensing of all controlled substances for Eagleville Hospital, going to the hospital weekly to check in controlled substances, fill each unit's order, deliver orders to proper nursing station, and maintain perpetual inventory of these medications.

#### Staff Pharmacist, Pharmacist-In-Charge

CVS PHARMACY - Haddonfield, NJ - 1998 to 2009

Demonstrated and delivered excellence in a busy retail pharmacy environment, executing a range of pharmacy, management and administrative services while ensuring excellent customer services at all times. Responsibilities included dispensing prescription and over the counter medicines, counseling and advising patients on use of medications, and liaising with medical staff to provide effective drug therapies and treatments. Coordinated training of pharmacy interns and technicians. Served as expert on company's standards, policies, and procedures. Collaborated with managed care companies and physicians. Tracked and managed pharmacy inventory. Optimized scheduling, communications, and team development.

#### Key Achievements:

- Championed role as preceptor to students from USP, Rutgers, and Temple University, facilitating with learning outcome achievement and training in pharmacy law, inventory management, prescription filling, communication, and 3rd party processes.
- Finalized and presented community outreach programs: blood pressure screenings, senior citizen "brown bag" assessments, and "Meet Your Pharmacist" days.
- Transformed store from low customer service ratings by leveraging outstanding customer service and organizational skills to grow patient volume and secure recognition as 'Best in District' (scores of 90+) for 2 years.

## EDUCATION

### **Bachelor of Science in Pharmacy**

University of the Sciences in Philadelphia - Philadelphia, PA
