License:

Pharmacy Intern License

State of Pennsylvania - November 2010 to November 2010

11/2010 to 11/2016

Lab Assistant

Undergraduate Research - Philadelphia, PA - January 2010 to August 2010

Temple University Department of Chemistry, with Dr. Michael Zdilla

- I worked hand in hand with Postdoctoral, graduate and fellow undergraduate students in the synthesis and reactivity of biologically inspired metal clusters under the tutelage of Dr. Michael Zdilla.
- I focused on the project of Synthetic Manganese Nitrogen Cluster Chemistry, which is inspired by the oxygen evolving center found in Photosystem II. This project was to create a new class of low coordinate manganese cluster that use nitrogen-containing bridging ligands, the result of the clusters was to enhance lability and reactivity.

Undergraduate Research - January 2010 to August 2010

Temple University Department of Chemistry

Cashier

Music and Arts Center - Horsham, PA - August 2006 to October 2006

I helped to sell instruments and music books to new music students as well as other related items.

- Worked the register in the store to sell music related products to customers
- Specifically I helped during the rush period when all the new music students starting instruments in elementary school in the Horsham area stopped in to rent and buy musical instruments from our location.
