PUBLICATIONS

Use of Appropriate Controller Medications for People with Asthma in a Medicaid Managed Care Population: A Drug Utilization Review

April 2015

Primary care providers (PCPs) were provided a list of their patients (HNJH members) who were suspected of having persistent asthma but have not filled a long-term controller medication, and asked if they would consider initiating one. Results were presented at AMCP's 27th Annual Meeting & Expo in San Diego, California, April 2015.
