## WORK EXPERIENCE

### **Stationary Engineer**

Quaker Bridge Mall - Lawrenceville, GA - May 2006 to Present

#### Responsibilities

Work in central plant with centrifugal chilled water air conditioners and 4 165 HP boilers. Also air handlers, electrical, plumbing, and other general maintenance. Blue seal steam, red seal refrigeration, and Universal CFC license.

#### Accomplishments

A great deal of wiring, a lot of hvac maintenance. Took monthly meter readings on all stores. This mall is a million square feet plus.

#### Skills Used

All trades. Electrical, plumbing, carpentry, air flow, filters, hvac troubleshooting, etc. Have been in a/c since 1978. Also a four year navy veteran on an aircraft carrier. This job also involves a lot of interaction with people (the tenants of the mall.) Good communication skills are essential.

## EDUCATION

### **Degree in Specialized Technology in RHVAC**

Gateway Technical Institute - Pittsburgh, PA

1980 to 1981
