### SKILLS

- Strong background in cross-functional team work, primarily in Long Term Care.
- Successfully opened new pharmacies and implemented measures to maximize volume and productivity.
- Developed, managed and motivated a team of fill technicians.
- Responsible for the review of residents' charts and medications, while also communicating recommendations to nurses and prescribers and ensuring rational drug use.
- Counseled patients on the use and care of medications, interactions, side effects, storage and dosage.
- Performed and supervised compounding, labeling and dispensing of medications using Opus, Parata

PacMed, Blisters and Intravenous systems. • Compounded and dispensed I.V. admixture and T.P.N. admixture. • Working knowledge of Facts and Comparison, Frameworks and various other pharmacy-specific software programs. • Implemented and managed control procedures to ensure compliance with Federal and State Regulations. • Entered prescription orders, billed applicable insurance providers, and supervised third party billing in retail setting.
