### WORK EXPERIENCE

#### Pharmacist

Walmart - April 2015 to Present

Counsels patients on all new prescriptions.

- \* Completes Medication Therapy Management for insurance reimbursement through Mirixa® and Outcomes MTM®.
- \* Follows standard operating procedures and supports compliance with company policies and pharmacy law.
- \* Supports various high volume pharmacy locations processing approximately 450 prescriptions per day.

#### Pharmacy Software Consultant

- August 2014 to Present

- \* Critiques medical software to help meet industry standards, reduce errors, and improve work flow.
- \* Fields all questions from clients relating to retail pharmacy, health systems pharmacy, state, and federal laws.
- \* Advises professionals on specifics of fraud, waste, and abuse, as well as HIPAA and insurance auditing.
- \* Makes recommendations for usual and customary pricing to reflect market pricing.

#### Pharmacy Manager

Landis Pharmacy - March 2011 to April 2015

Created and maintained pharmacy procedures manual with a focus on patient safety, pharmacy law, and potential audits.

- \* Responsible for increasing profitability and productivity through improved work flow and procedures.
- \* Created competitive prescription pricing through the use of price tables and formulas within QS1®'s software.
- \* Responsible for implementing Medication Therapy Management for insurance reimbursement via Mirixa® and McKesson®.
- \* Created monthly staff schedules and training for over 10 staff members.
- \* Reduced inventory by 50% by establishing ordering and filling procedures in order to decrease excessive spending and waste in a pharmacy with manual ordering processes.
- \* Completed in depth sales analysis with specific focus on acquisition price and insurance reimbursement.
- \* Resolved deficiencies in software setup while enabling safety features in software such as NDC checking, bar code scanning, and mandatory "hard stops" before prescriptions labels are printed, and again before prescriptions are finalized.
- \* Flavored medicines, reconstituted powders, compounded medications, counted tablets and capsules, and measured liquid prescriptions.
- \* Responsible for many of the tasks typically completed by a pharmacy owner.

#### Traveling Pharmacist

Walgreens Pharmacy - June 2009 to December 2010

Administered immunizations, counseled patients, compounded and counted medications.

- \* Processed prescriptions while ensuring safety and quality.

- \* Communicated with health care professionals to help decrease costs for consumers, pharmacies, and third parties.
- \* Verified typed prescriptions for accuracy and final product for quality and pharmaceutical elegance.
- \* Supported more than 20 Walgreens pharmacies in the Philadelphia, Allentown, Lancaster and Scranton areas.
- \* Helped to replenish and maintain prescription vial filling machines such as Yuyama®.
