WORK EXPERIENCE

Senior IT Engineer

Vanguard Funding, LLC - Garden City, NY - September 2013 to Present

Technical Scope: Windows Server 2008 R2, Active Directory, MS Exchange, Veeam Backup Suite, SQL Server 2012, SharePoint Designer, Qualys Vulnerability Management, VMware Vcenter, Configure, install, and troubleshoot network infrastructure for remote company branches. Work closely with team members and branch managers to plan and execute infrastructure repairs, improvements, and maintenance. Liaise with third-party vendors to acquire services and equipment as well as resolve issues. Coordinate and execute multiple technical activities including: Active Directory configuration, group policy creation and management, VPN installation, DNS/DHCP configuration, PowerShell scripting automation, SharePoint design and development, and VoIP configuration.

Key Achievements:

- * Created and implemented comprehensive policy and procedure document to define department workflow and support including user account management, equipment and software licenses, and shared IT knowledge base.
- * Deliver training and end-user support remotely and onsite for software and online services.
- * Enhance and maintain company-wide back up policies and disaster recovery mechanisms to drive business continuity and protect assets.
- * Provided Tier 2 and Tier 3 technical support.
- * Manage virtualization environment using VMware ESXi 3.x and VMware vSphere 5.x to optimize infrastructure in a multi-site environment.

Project Lead/Programmer

Monroe College - Bronx, NY - January 2013 to April 2013

Technical Scope: C#, HTTP, Asp.Net MVC 4, Arduino

Participated in intensive hands-on senior seminar practicum to apply concepts and skills gained through undergraduate coursework. Developed and executed project from initial concept to successful completion. Created Arduino sketch to allow Arduino microcontroller to communicate over web using HTTP request and response messages. Wrote C# code to handle authentication processes and database connectivity.

Key Achievements:

- * Coordinated efforts of technical team members to achieve project goals on-time and meet seminar objectives.
- * Leveraged technical skills to partner with web designers, producing a web application using Asp.Net MVC 4.

PC Support Volunteer

Wartburg Adult Care Community - New Rochelle, NY - 2011 to 2011

Technical Scope: MS Word, web browsers, OS imaging

Volunteered alongside National Society of Black Engineers (NSBE) members to provide configuration, installation, and repair services within community-based social services agency. Delivered training, coaching, and support to end users, increasing staff and client capacity with Microsoft Office products and web services.

Junior Programmer/System Administrator

Citi Loans - Kingston - 2009 to 2010

Technical Scope: SQL Servers & Databases, C#, Win Form

Provided programming and system administration support for loan provider office. Delivered help desk support, troubleshooting, and software/hardware installations for onsite employees. Developed web service using C# to transmit loan request information into database. Coordinated system configuration, back-up, and maintenance efforts.
