## WORK EXPERIENCE

### **Stower**

Amazon Fulfillment - Robbinsville, NJ - August 2014 to January 2015

#### Responsibilities

Get to station on time and acquire carts filled with products to be shipped out, take products off carts to properly place into bins for shipment, as a process guide I had to train new employees on how to properly stow products in a timely fashion, and keep track of all stowers on my floor as well as track their production time for processing.

#### Accomplishments

I helped speed up production so we would reach or exceed our daily rate, also helped other stowers who were new or not as fast and proficient as me in order to keep production at a high rate, gave the job area a great attitude to approach the work shift with, took advice and criticism to learn better ways to do my job.

#### Skills Used

Team work, learning a new system while teaching others the same in order to speed up production, counting and keeping track of all employees on floor while tracking their production rate, operating in a fast paced environment and learning tactics to carry on into a new position.

### **Assembly Line Worker**

Trane - Ingersoll Rand - Trenton, NJ - March 2014 to August 2014

#### Responsibilities

Assemble heating and ventilation filters for products, packing products off line into boxes in order to be shipped out

#### Accomplishments

I was able to speed up the production with innovative procedures to create filters at a faster pace as well work on the line when needed, consistent job attendance to fill in places that needed workers.

#### Skills Used

fast assembling for ventilation in heat and venting products, I also was able to demonstrate fast learning skills to blend in with more seasoned workers so production didn't slow down, while assembling products with fast screwing and bolting for more production.

### **Receiving Associate**

Burlington Coat Factory - Burlington, NJ - September 2013 to February 2014

#### Responsibilities

Load and unload products on and off trucks, pick and pack clothing to be sent out to stores, use the qv scanner to organize different clothes by categories

#### Accomplishments

Helped speed up production with installment of teams in certain warehouse areas, created a more speedy flow of production by quickly packaging orders for shipments, created a good atmosphere for coworkers and new employees to work in.

#### Skills Used

Learning how to multitask with different jobs in order to get more work done in less time, creative processing on bringing new but efficient tactics in order for more production, learned how to lead a team and help in other warehouse areas to assist in speeding up the pace of growth in the warehouse.

Trenton Psychiatric Hospital - Ewing, NJ - January 2012 to May 2013

As maintenance for the Trenton Psychiatric Hospital, I sped up the quality of work while having staffing difficulties.

Cleaned all buildings in efficient timing as well as took care of others work that couldn't finish in a timely manner. Created great work atmosphere for daytime employees when they returned to their buildings by the next morning.

Maintained a great attitude towards bosses and co-workers to keep a speedy process of quality work performed.

#### **professional painter**

Brenner Painting Associates - Ewing, NJ - October 2010 to September 2011

I've increased work projects because of speed and great quality of work.

Obtained enhanced painting skills in a short period of time.

Organized trucks for utilities to be pinpointed more quickly.

Created a comfortable atmosphere for co-workers to produce more.

Department of Community Affairs, Downtown - Trenton, NJ - February 2010 to August 2010

Trenton, NJ 02/10-08/10

Worked at Joule Temps, as a designated office mover, I developed organized office space for state employees.

Reorganized file cabinets for more efficient access to files.

Created spreadsheets on excel for staff recordkeeping.

Answering telephones, faxing, using PowerPoint to introduce new ideas.
