### WORK EXPERIENCE

#### Senior Engineer

Endo Health Solutions - Malvern, PA - 2010 to Present

Migrated Configuration Manager 2007 to 2012 R2 version.

- Maintained staffing levels as the number of managed computers doubled and many additional locations including international were added to the environment.

#### Senior Consultant

Microsoft Corporation - New York, NY - 2008 to 2010

Accelerate Microsoft product deployment and acceptance while participating in a profitable consulting organization working with enterprise level customers.

- Worked with Accenture on a design for managing 80K internet based clients.
- Designed and implemented Configuration Manager for 40K desktops for a highly secure Department of Defense group.
- Provided Windows Server 2008 build assistance to Pfizer.
- Acted as integration test lead for Johnson & Johnson custom SCCM front end application.
- Attended virtualization, desktop optimization and technical readiness training.

#### President/Consultant

DJTEC Group, Inc - Schwenksville, PA - 1999 to 2008

Independent consultant and subject matter expert providing business and technical consulting in the area of deploying and managing tens of thousands of Wintel based personal computers and servers. Architected, documented, designed, implemented and provided operational assistance for various implementations of Systems Management Server (SMS).

For GlaxoSmithKline (Pharmaceutical, 1999, 2002-2007, 2007):

- Implemented enterprise management solution for over 100,000 client systems and 5,000 servers for 300 global locations.
- Managed project on time and budget to deploy 200 global servers including resourcing, scheduling, progress to plan and coordination with other deployments.
- Influenced and persuaded various business units, local site and server management executives to support a global Windows Management initiative (in place of more costly local solutions).
- Created and adjusted detailed project plan during integration review of Windows Server 2008 to identify effort required to migrate to the new operating system when lack of vendor support for the new operating system required project changes and communications.
- Bootstrapped operational group defining service levels, metrics and service level agreements.
- Gained audit acceptance of all architectures, designs migrations and operational procedures in accordance with pharmaceutical standards.

#### documented and operated Configuration Manager

Stabilized - 2007 to 2007

2007 Implementation.

- Simplified multiple builds from many images to one Windows 7 X64 build. Later modified build in SCCM 2012 to support Windows 8 Pilot in the same task sequence.

DJTEC Group, Inc - 2007 to 2007

2007) - Managed migration including status reporting and user communication of 6,000 Exchange Mailboxes to Symantec Enterprise Vault product.

For City of Jacksonville (Government, 2007) - Completed design and pilot implementation of SCCM 2007 for Microsoft. Developed full implementation project plan to be completed by the customer.

### **System Center Configuration Operations Manager**

DJTEC Group, Inc - 2007 to 2007

For Comcast (Media, 2007) - Prevented significant customer expense by working with third party vendors to determine requirements for monitoring of thousands of servers using System Center Configuration Operations Manager (SCOM) 2007.

For Air Products and Chemicals (Chemical, 2001) - Managed project and implemented SMS 2.0 for over 15,000 clients.

### **Systems Management Server Engineer**

Microsoft Corporation - Charlotte, NC - 1999 to 1999

Premier Support)

Provide in depth technical support to enterprise premier customers for SMS and Wintel. Successfully handled the second highest number of support cases for my team in my first full month.

### **Consultant**

Manpower Technical - Pittsburgh, PA - 1995 to 1999

Lead all aspects of Wintel management for the Common Infrastructure Initiative (CII) for ALCOA. CII involved deployment of over 500 Wintel servers and 22,000 clients to 160 worldwide locations

## **EDUCATION**

### **Bachelor of Arts in Computer Science**

LaSalle University - Philadelphia, PA

## **SKILLS**

System Center Configuration Manager (SCCM), Windows Management
