WORK EXPERIENCE

FULL-TIME STAFF PHARMACIST

ATLANTICARE - Atlantic City, NJ - November 2008 to April 2011

Provide prescription product, appropriate service and consultation to every customer; supervise pharmacy technicians, clerks and pharmacy interns in compliance with federal and state laws and company policies and procedures. Take all steps required to fill prescriptions in compliance with all laws, regulations, and company policies and procedures regarding the sale of pharmaceuticals including: retrieval of the product(s); counts, pours, or measures out the required quantity according to established company methods and procedures; affixes the label permanently to the container; and performs a final audit (verification) of the prescription. Work together as a team with the Speciality Care Clinic to assure that those patients are evaluated for poly-pharmacy, compliance, allergies and any other issues that arise. Assist with and respond in a courteous and professional manner to questions from customers and physicians in regards to knowledge of prescription and health related products and issues. Offer advice and professional consultation; act as a role model to the pharmacy team; efficiently handle customer complaints; and direct pharmacy operations to keep wait times to a minimum. Respond to telephone requests from customers, physicians, and vendors that require the expertise of the pharmacist. Able to readily adapt to changes in schedule specifications and work priorities as the business and customer needs demand. Maintain two separate inventories to keep in compliance with the pharmacy operating permit.
