WORK EXPERIENCE

Software Engineer
LOCKHEED MARTIN - October 2014 to Present

MISSION SYSTEMS & TRAINING)
Work in a team of experienced software and system engineers to develop mission-critical software for the United States Navy. Achievement Highlights:
* Contributed software engineering expertise in the development of products through the software lifecycle, from requirements definition through successful deployment.
* Facilitated expansion of test automation by encouraging software engineering team to adopt modern testing tools such as JUnit and Mockito.
* Quickly became established within the team as a strong source of technical expertise.
* Participated in meetings with non-technical leadership to explain complex solutions in easily understandable terms.
* Facilitated maintainability and reuse of existing code by suggesting well-researched designs.
* Excelled in rapid application development and management of technological issues for assigned projects.

Research Assistant
ROWAN UNIVERSITY - August 2013 to August 2014

Assisted in the development of data processing and visualization software for a leading pharmaceutical company. Achievement Highlights:
* Developed Graphical User Interface for data display using Windows Presentation Foundation and C#
* Developed a library of interactive visualization controls to facilitate various types of data analysis
* Updated existing visual basic application to a more robust C# solution

EDUCATION

Master of Science in Computer Science
ROWAN UNIVERSITY - Glassboro, NJ
May 2015

SKILLS

Java (2 years), C# (1 year), Python (Less than 1 year), SQL (1 year), JUnit, Linux (2 years), JIRA (1 year), Clearcase (2 years), Eclipse
